SURESH UPPATHI

FullStack Software Engineer

+91-(830)-948-9594 sureshuppathi@gmail.com linkedin.com
portfolio Hyderabad, India

SUMMARY

Full Stack .NET Developer with 8+ years of experience in designing, developing, and maintaining scalable web applications. Strong expertise in C#, .NET Core, ASP.NET MVC, Web API, Entity Framework, LINQ, SQL Server, Angular, and JavaScript. Skilled in RESTful API development, application performance optimization, debugging, and troubleshooting. Good understanding of OOPS, SOLID principles, and design patterns. Experienced with Azure DevOps, Git, CI/CD pipelines, and Agile methodologies.

WORK EXPERIENCE

Software Engineer
11/2022 - Present

Concentrix
Hyderabad, India

- Improved application performance by implementing efficient **pagination**, reducing page load time by **40%** and enhancing user experience.
- Identified and resolved critical issues using **Azure Application Insights**, increasing application reliability and reducing production errors by **30%**.
- Spearheaded the migration from **.NET Framework to .NET Core Web API,** resulting in **45% faster API response times** and **60% easier maintainability.**
- Led R&D efforts to evaluate and integrate a new **API testing framework**, boosting test coverage by 50% and accelerating the QA process by **25%**.
- Provided end-to-end support for development and troubleshooting, reducing bug resolution time by **20%** through proactive monitoring and support.
- Optimized front-end performance by streamlining **third-party package usage**, reducing bundle size by **35%** and improving UI responsiveness.
- Evaluated and developed new features based on business needs, leading to **15% faster delivery of feature releases** and improved stakeholder satisfaction.
- Promoted test-driven development by integrating **xUnit-based unit testing**, leading to a **20% decrease in production issues.**
- Integrated **Worldpay payment gateway**, expanding payment options and increasing successful transactions by **20%**.
- Translated business needs into specs and designs. Aligned objectives with **architecture**.
- Streamlined **CI/CD pipelines** with Jenkins/GitHub, reducing deployment time by **40%** for seamless releases.

FullStack .NET Developer
10/2022 - 10/2022

Speridian Technologies
Hyderabad, India

- Reduced tax return processing time by **70%** by implementing **distributed caching** (Redis) and optimized SQL queries.
- Migrated the mission-critical Taxation system from legacy **.NET Framework to cloud-native microservices**, reducing **latency by 60%**.
- Reduced IRS e-file rejection rates by **30%** via real-time validation **microservices** (Kafka, Redis) and idempotent retry logic.
- Owned end-to-end production support (SRE principles), resolving 50+ critical P0/P1 incidents in TEST/PROD via root cause analysis (RCA).
- Provided ongoing support for development, troubleshooting, and support.
- Reduced server downtime by **15%** by enhancing monitoring and alert systems.
- Took ownership of Maintained coding standards by performing static code analysis with **SonarQube**, reaching an **85% code quality score**.

.Net Developer
07/2018 - 10/2021

MSC Technology India
Hyderabad, India

- Implemented core business logic in C# for route calculation and package allocation, reducing processing time by **20%**.
- Built REST APIs (.NET Core) for real-time container tracking, integrated with third-party logistics (3PL) vendors.
- Designed and implemented a system for container equipment placement and real-time shipment tracking to improve logistics efficiency and visibility.
- Increased application scalability by **30%** by refactoring legacy code using modern .NET practices.
- Promoted test-driven development by integrating xUnit-based unit testing, leading to a **30%** decrease in production issues.
- Translated business requirements into technical design specifications.

SKILLS

Backend & Databases

C# · .NET · .NET Core · WebAPI · Entity Framework · MVC · SQL · Swagger · REST APIs · LINQ · ASP.NET · Web Services · ADO.NET · OOP · MS SQL Server · SOLID Principals · Design Patters · JWT · xUnit

Frontend

Angular · TypeScript · HTML5 · CSS3 · TailwindCSS · Material UI (MUI)

AI & Agentic Tools

AI · Generative AI · Agents. RAG. MCP Servers · Cursor · Claude Code · Codex · Copilot

Cloud & DevOps

Azure · Azure DevOps · CI/CD · Agile · Jira

KEY ACHIEVEMENTS

- Best Employer of the Quarter
- Copilot Agents Certified Engineer
- Claude Code in action certification

PERSONAL PROJECTS

A .NET-powered e-commerce application focused on delivering a seamless and intelligent shopping experience.

Integrated a Model Context Protocol (MCP) server into an ASP.NET Core Web API.

EDUCATION

Bachelor of Technology in Computer Science

Velammal Engineering College

Chennai, India
